

# WEST CHILTINGTON SCHOOL NEWS

Summer 2019

3<sup>rd</sup> MAY

**This week in school:** The pictures in this week's gallery have a very energetic flavour to them. Last Friday, all of the children were involved in a day of skipping activity. Lee has visited us before and always enthuses the children with the variety and energy he brings to this apparently simple activity. Some of our children spent Tuesday afternoon down at Rock Road enjoying an afternoon of Multi Sports too.

Our intergenerational "banner project" got off to a flying start this week. You'll remember that children from across the school are working with parents and retired people from the village to produce a new banner for this year's village show.

There is also a picture of some of our lovely year 6 children who have taken it upon themselves to revive a small garden corner in our school grounds. The project was conceived, planned and carried out over a three-month period. Last weekend, with some help from their parents, they completed the planting. We are proud and grateful.

**Solar energy:** As you know, the children are rightly very concerned and motivated by the issues connected to our world's climate crisis. We are proud of them and their commitment. We are also pleased to be able to encourage them and let them know that there are things that together we are doing to make a difference.

The solar panels on our roof which were largely funded by FOSA generated enough electricity last year to power a family home for a year. Not only is this great environmental news, it also helps us to offset the huge energy price rises which are forecast for this financial year.
