

West Chilton School Pupil Premium Grant allocation 2016-17. Grant value £7600

We continue to have a much smaller group of children than other schools both nationally and locally for whom we receive pupil premium funding. In allocating this relatively small sum, we give consideration to the specific personal needs of each child and plan to spend it so that:

- we have sufficient additional adult support in classrooms;
- all adults have the training needed to support the well-being and progress of those children;
- we can provide precise interventions to help overcome barriers to learning;
- we can provide additional enrichment.

Barriers to progress for children	Desired outcomes
Attachment difficulties which affect ability to: <ul style="list-style-type: none"> • Interact positively; • Sustain concentration; • Focus on improving learning 	Meet personal needs of individuals in order to: <ul style="list-style-type: none"> • improve their personal well-being and self-esteem; • improve their ability to access the curriculum and make progress in line with their peers.
Specific literacy difficulties including dyslexia	For all children in this group to be working within the expected standard for their age in reading and in writing.
